

# Fellowship in Aesthetic Gynaecology

For medical Doctors, Dubai-UAE

Choose your convenient time and expose your practice

*Aesthetic Gynecology is now very common practice among women. It deals with the visual appearance, sensation and other cosmetic issues in relation to the health and functioning of the female reproductive system including the vagina, uterus, ovaries and breasts. Whether it is due to time, age, gravity, genetics, childbirth and/or chronic pelvic issues, a woman may see changes to her body that she may want to reverse, remove or reshape*

## Course Highlights
